

PROJECT TITLE IN CAPITAL LETTERS

A Project Report Submitted
for the Course

MA498 Project I

by

[Name of the Student]

(Roll No. 2201230**)

to the

DEPARTMENT OF MATHEMATICS
INDIAN INSTITUTE OF TECHNOLOGY GUWAHATI
GUWAHATI - 781039, INDIA

November 2025

CERTIFICATE

This is to certify that the work contained in this project report entitled “Title of the project report” submitted by Name of the Student (Roll No.: 2201230xx) to the Department of Mathematics, Indian Institute of Technology Guwahati towards partial requirement of Bachelor of Technology in Mathematics and Computing has been carried out by him/her under my supervision.

It is also certified that this report is a survey work based on the references in the bibliography.

OR

It is also certified that, along with literature survey, a few new results are established/computational implementations have been carried out/simulation studies have been carried out/empirical analysis has been done by the student under the project. *[Remove the portions not relevant to the project]*

(Dr./Prof. Name of the Supervisor)

Project Supervisor

ABSTRACT

The main aim of the project

Contents

List of Figures	v
List of Tables	vi
1 Introduction	1
1.1 Section-1 Name	1
1.2 Section-2 Name	2
1.2.1 Subsection name	2
2 Chapter-2 Name	3
2.1 Section-1 Name	3
2.2 Section-2 Name	3
2.2.1 Subsection name	3
Bibliography	5

List of Figures

1.1	The correlation coefficient as a function of ρ	2
-----	---	---

List of Tables

Chapter 1

Introduction

Introductory lines... on the background, motivation, etc of the project.

1.1 Section-1 Name

Some text here ...

Definition 1.1.1. Some definition....

Theorem 1.1.2. *Some theorem.....*

Proof. Proof is as follows....

□

Corollary 1.1.3. *A corollary to the theorem is....*

Remark 1.1.4. Some remark.....

You may have to type many equations inside the text. The equation can be typed as below.

$$f(x) = \frac{x^2 - 5x + 2}{e^x - 2} = \frac{y^5 - 3}{e^x - 2} \quad (1.1)$$

This can be referred as (1.1) and so on.....

You may have to type a set of equations. For this you may proceed as given below.

$$\begin{aligned} f(x) &= e^{1+2(x-a)} + \dots \\ &= \log(x+a) + \sin(x+y) + \dots \end{aligned} \tag{1.2}$$

You may have to cite the articles. You may do so as [4] or [1, 3] and so on..... Note that you have already created the ‘references.bib’ file and included the entries with the above name. Only then you can cite it as above.

1.2 Section-2 Name

Definition 1.2.1. Some definition....

Remark 1.2.2. Some remark.....

1.2.1 Subsection name

Theorem 1.2.3. *Some theorem.....*

Proof. Proof is as follows.... By Definition 1.1.1

□

[The figure will be displayed here.]

Figure 1.1: The correlation coefficient as a function of ρ

Chapter 2

Chapter-2 Name

Introductory lines...

2.1 Section-1 Name

Definition 2.1.1. Some definition....

Remark 2.1.2. Some remark.....

Theorem 2.1.3. *Some theorem.....*

Proof. Proof is as follows....

□

2.2 Section-2 Name

Definition 2.2.1. Some definition....

Remark 2.2.2. Some remark.....

2.2.1 Subsection name

Theorem 2.2.3. *Some theorem.....*

Proof. Proof is as follows....

□
